Professional Summary

Results-driven QA Engineer Lead / SDET with 5+ years of experience in software testing, automation, and quality engineering. Strong background in functional, regression, API, and performance testing, with hands-on expertise in building automation frameworks and supporting CI/CD pipelines. Proven ability to lead QA initiatives, mentor teams, and improve product quality across distributed environments. Experienced working cross-functionally with developers, product teams, and business stakeholders, with working knowledge of enterprise systems including Salesforce platforms and integrations.

Core Competencies

Testing: Functional, Regression, Smoke, GUI, API, Performance
Automation: Cypress, Selenium (Java), Postman
QA Tools: Jira, Test Case Design, Documentation, Defect Tracking
DevOps: CI/CD pipelines, Jenkins, SonarQube
Technical: JavaScript, Java, SQL, API Testing, Database Validation
Systems Knowledge: Salesforce ecosystem (basic administration, workflows, integrations)
Methodologies: Agile, Scrum

Professional Experience

MSI – Orange County, CA

Lead QA Engineer / Automation Engineer (08/2022 – Present)

- Lead QA efforts across multiple projects, ensuring end-to-end product quality throughout the SDLC
- Design and execute comprehensive test strategies including manual and automated testing
- Build and maintain automation frameworks using Cypress, reducing regression testing time
- Perform API and performance testing using Postman
- Support and enhance CI/CD pipelines, including SonarQube integration for code quality
- Mentor QA team members and collaborate with cross-functional teams
- Work with Salesforce-related workflows and data validation

Parasoft – Monrovia, CA

Quality Assurance Analyst (01/2021 – 08/2022)

- Performed manual and functional testing for web and mobile applications
- Designed and maintained test cases covering full requirements
- Identified and tracked defects in Jira, resolving 500+ issues
- Conducted GUI testing and delivered QA reports

inVerita – Chicago, IL / Los Angeles, CA

Software QA Engineer (01/2020 – 12/2020)

- Executed smoke and regression testing across platforms
- Validated database integrity through stored procedures
- Supported end-to-end testing for releases

Education

Bachelor of Science in Computer Science – University of California, Riverside

Certifications

Google Cloud DevOps – Associate
Selenium Training
JMeter Performance Testing
REST API Testing

Technical Skills

Languages: Java, JavaScript, Python, SQL
Tools: Cypress, Selenium, Postman, Jira, Jenkins
Databases: MariaDB, MongoDB, SQL

Additional Information

Bilingual: English, Spanish; basic Russian
Open to remote and hybrid opportunities
